本节主题：

C++编程环境

# 编程环境

+

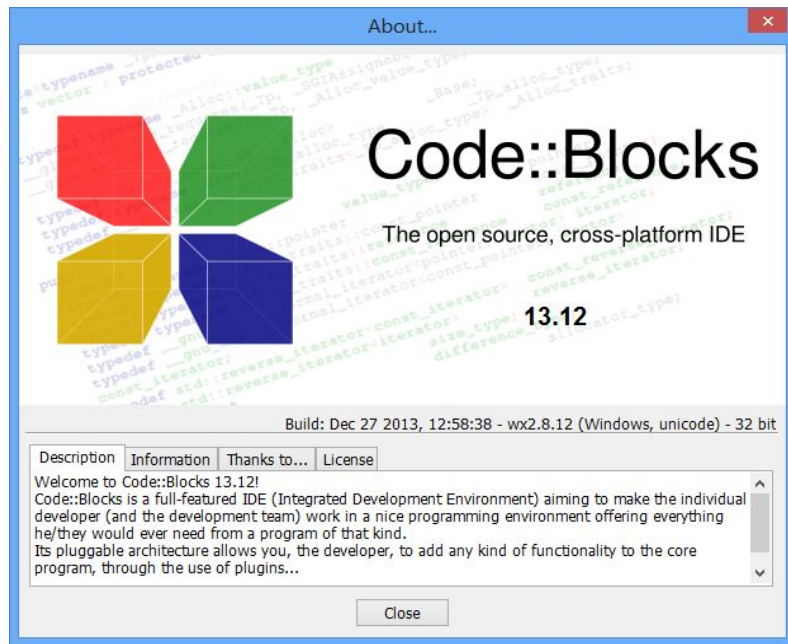

+

# 本课程学习选择CodeBlocks

- Code::Blocks is a **free** C, C++ and Fortran IDE built to **meet the most demanding needs** of its users.
- It is designed to be **very extensible** and **fully configurable**.
- Finally, an IDE with all the features you need, having a **consistent** look, feel and operation **across platforms**.

## 用法示例

```
#include<iostream>
using namespace std;
void printstars(int m) //定义能输出一行m个星号的函数
{
    for (int j=1; j<=m; ++j)
        cout<<'*';
}
int main()
{
    int i;
    for(i=1; i<=6; ++i)
    {
        printstars(2*i-1);
        cout<<endl;
    }
    return 0;
}
```

下载安装见《C语言及程序设计初步》第3课时
